Rundoo | ORGILL

Rundoo works with Orgill

> The AI-first platform for independent hardware, lumber, and home improvement stores, connected straight to the world's largest independent hardlines distributor.

WHY ORGILL CUSTOMERS LOVE RUNDOO

1. **Load the Orgill catalog.** Orgill's full item master loads into Rundoo, UPCs, names, and descriptions included, so adding a product is a quick search instead of a data-entry project.
2. **Order over EDI, with your pricing.** Build the purchase order in Rundoo and send it straight to Orgill over EDI, your member cost riding on every line, so the price labels come back right the first time.
3. **Receive against the ship notice.** When Orgill ships, the advanced ship notice loads into Rundoo with line items and quantities, so you confirm what arrived and you're received in a couple of clicks.
4. **Keep costs and prices current.** Orgill price changes and item updates flow into Rundoo on their own, so your member costs and retail prices stay right without anyone opening a spreadsheet.
5. **Dooey, the AI built into every screen.** Ask which charge accounts have gone past due, where you lost margin last month, or what to leave off the next purchase order, and Dooey answers from your own live data.
